

**EXPERT SUPPORT SERVICES
SPECIALLY DESIGNED TO SUIT
THE NEEDS OF PRODUCERS,
WHATEVER THE LEVEL**

Expert Services to the Food & Drink Sector

Mitchell F&D Limited provides professional

training and advisory & support services for the Cider, Perry & Drinks Industry. In addition, courses in cider making and tasting are run for those with a general interest in the subject.

The Company provides:

- Access to a comprehensive range of fruit processing, cider & perry making and bottling facilities
- Fruit processing & juicing (milling & pressing) on a self-help or contract basis
- Contract cider, perry or wine fermentation
- Bottling, including carbonation, pasteurisation, labelling and casing

The above production services are primarily aimed to support new producers and business start-ups, but are also suitable for established companies who may wish to develop new production processes or undertake trial work. The facilities are also available for amateurs or community groups who may wish to produce small quantities of product for their own use.

Other services on offer to individuals, plus new and existing businesses of all scales include:

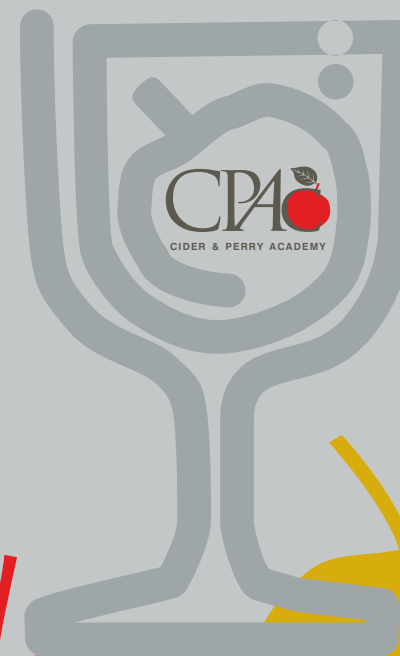

- Advisory work
- Production planning including design of facilities and equipment selection
- Trouble shooting
- New product development
- Process development
- Assistance with business planning and marketing
- Development of Quality Assurance and Quality Control Systems including HACCP, along with procedures, record-keeping and documentation
